Remote video download through Internet

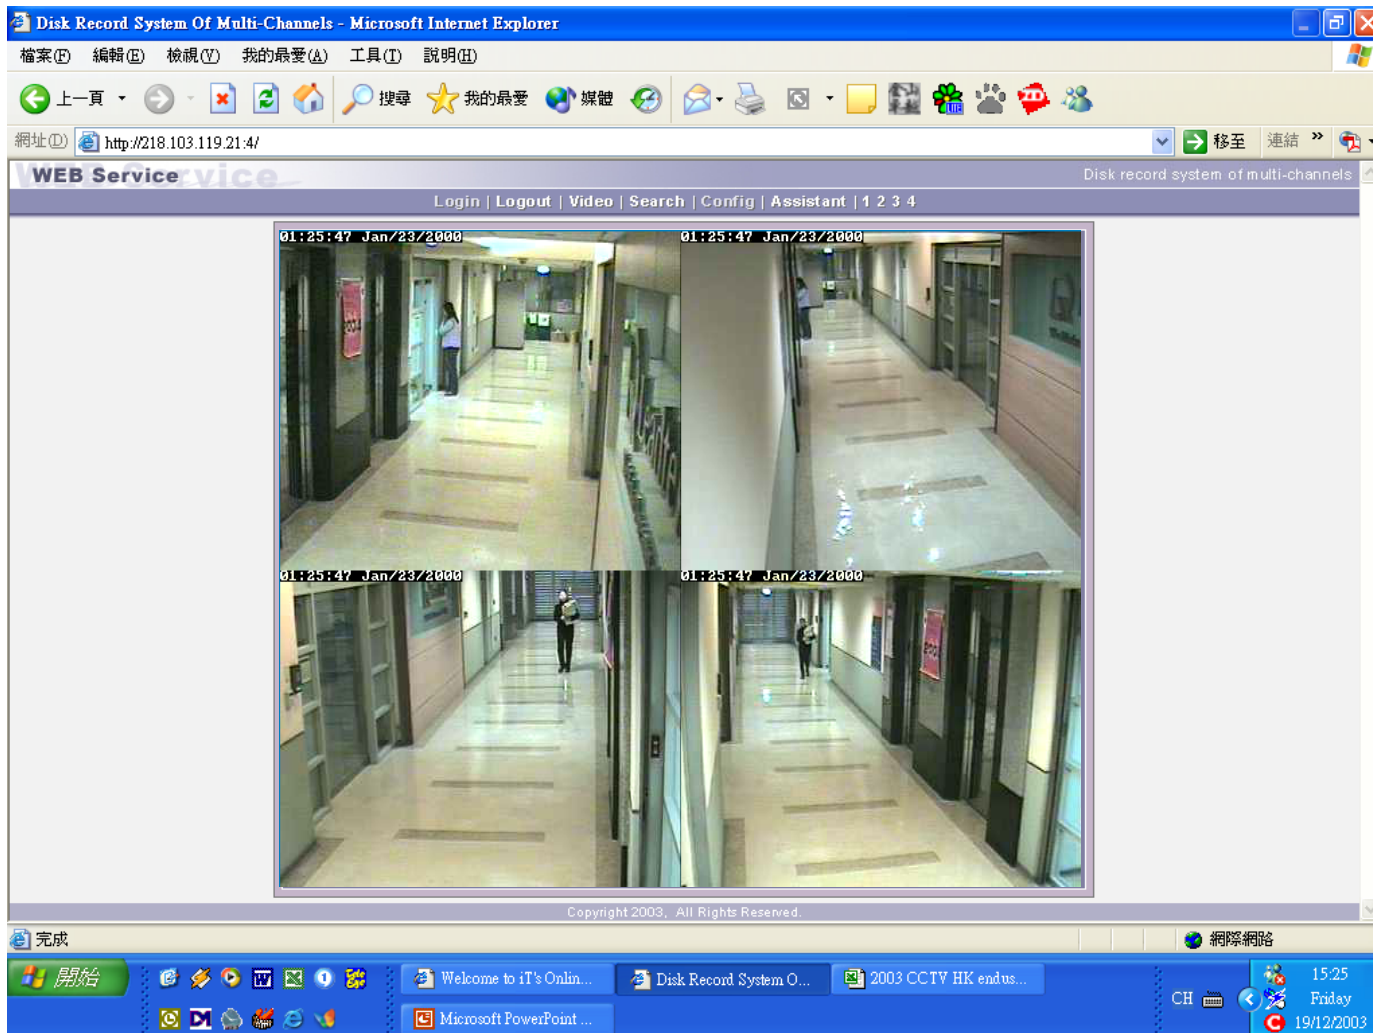

The screenshot shows a Microsoft Internet Explorer browser window displaying the 'Disk Record System Of Multi-Channels' web interface. The address bar shows the URL 'http://218.103.119.214/'. The main content area features a navigation menu with 'Login | Logout | Video | Search | Config | Assistant | 1 2 3 4'. A 'Record Search' dialog box is open, allowing users to search for records. The dialog has two tabs: 'Record' (selected) and 'Alarm'. The search parameters are set to Year: 2003, Month: 12, Day: 10, Hour: 9, Minute: 32, and Channel: 1. The search results are displayed in a table below the search parameters.

No.	Start Time	Stop Time	Size(KB)
No.1	2003-12-10 9:0:1	2003-12-10 10:0:50	114688
No.2	2003-12-10 10:0:50	2003-12-10 11:0:32	112640
No.3	2003-12-10 11:0:32	2003-12-10 11:46:3	82624
No.4	2003-12-10 11:47:39	2003-12-10 12:32:25	83584
No.5	2003-12-10 12:32:48	2003-12-10 13:3:29	36864
No.6	2003-12-10 13:3:29	2003-12-10 13:5:22	4096
No.7	2003-12-10 14:30:26	2003-12-10 15:0:50	55706

The Windows taskbar at the bottom shows the system tray with the date 'Wednesday 17/12/2003' and time '21:09'. The taskbar also displays several open applications, including 'Disk Record System O...', 'ILDVR - Microsoft Int...', 'Innovision Technolog...', and 'Microsoft PowerPoint...'.
