Digital Recording Software

The screenshot displays the INNOVISION Digital Recording Software interface. On the left is a control panel with the following sections:

- Channel:** Four buttons labeled 1, 2, 3, and 4. Button 2 is selected.
- DI Signal:** Four status indicators.
- DO Ctrl:** Two status indicators.
- Layout:** "One" (selected) and "Four" options.
- Quality:** Radio buttons for Medium, Standard, Good (selected), Detailed, and Excellent.
- Size:** Radio buttons for Half, Standard (selected), and Double.
- Record Settings:** Includes a "Scheduling" section with "Enable Scheduler" checked, and a "Max Frame rate" dropdown set to 30.
- Hard Disk Status:** Shows "Usage: 11%" and "FreeSpace: 38868436 KB".
- Function Menu:** Includes buttons for "PTZ", "Telnet", and "Alert Message".
- Navigation:** A central "HOME" button with directional arrows, and a "ZOOM" button with "+" and "-" symbols.

The main display area shows two video feeds:

- Channel 01:** Shows a kitchen area with a sink and counter. The timestamp is 2002/09/25 20:14:43.
- Channel 02:** Shows a dining room with tables and chairs. The timestamp is 2002/09/25 20:14:42.

Below the video feeds are two large, empty rectangular boxes, each labeled "Surveillance System" in a light blue font.
